

## Partner Implementation Guide

Thank you for interest in partnering with Bongo International. The following instructions will guide you through the process of partnering with Bongo International to fulfill international consumer demand for your products.

There are numerous ways to communicate the partnership and additional value Bongo International can provide your business and we encourage you to contact a Bongo Sales Representative.

### Step 1: Determine how you are going to communicate the Bongo Partnership

You are not limited or restricted in how you communicate the Bongo Partnership; however, we have created resources to simplify the process.

**Flash Links:** [Click here](#)

#### **Suggested Verbiage:**

**<Company Name> has gone international!**

We have partnered with **Bongo International** to offer our international visitors the ability to make purchases from our website. Bongo International provides it's customers with their very own US address (not a P.O. Box).

Once you have a US address, you will be able to make purchases at **<Company Name>** as well as other US based online retailers. Bongo receives your purchases and logs them into their online system where you can consolidate them with other orders.

This process saves international customers up to 82% off typical international shipping rates.

**\* Be sure to create a link within your shopping cart to direct international visitors to the "International Shopping" page**

### Step 2: Determine where you would like to route international consumers.

**Bongo Home Page:** [Click here](#)

**Co-Branded Landing Page:** [Click here](#) (provided by a Bongo Sales Rep)

### Step 3:

Be sure your shopping cart is set up to accept international credit cards.
