By shopping on the Web you can take advantage of the low dollar without directly to the United States to travel. One problem: many U.S. merchants refuse their products to Europe by ship.

There is now a solution: hiring specialized companies for a small amount a U.S. mailing address, which you your purchases in U.S. shopping sites can be delivered.

Shipping

The same companies then let your iPod, camera or video game to Canada forward. You can even let packets merge so as to the trans-Atlantic shipping savings.

Elsevier did extensive experience with the American **International Bongo**, which unlike competitor **Access USA** a transparent cost structure and a clear procedure knows.

Against payment of 15 dollars (about 10 euro) per month Bongo provide a U.S. mailing address and telephone number where webshops with any issue. This American address can then by your credit card company to register as a second mailing address. If you do not, can you face difficulties in paying your purchases. Pushing with your creditcardverstrekker is sometimes necessary.

Extras

Bongo also provides additional services. This will enable the company to your shipment inspection shooting. There is also a personal shopper service for which one you like music player or computer can find nowhere. But generally you're better off by searching through winkelfunctie Google at www.google.com/products.

Important while shopping in U.S. webshops the concept of 'coupon', ie coupon. Because even on the Web site **RetailMeNot** look before you order, sometimes you can save tens of dollars.
